

PROJECT ROCKIT

RAINBOW CHATTERBOX

This is a great way to provide messages of support for students who may need a lift. Before getting started, you'll need to print our chatterbox provided on the following page in colour. You can also print a pre-filled template [here](#) to use our messages of support for LGBTIQ+ students.

1. Fold the square in half point to point to make a triangle and then unfold. Make this fold so that design is on the outside.
2. Fold each of the corners into the centre to create a smaller square.
3. Fold this smaller square in half to create a rectangle and then open back out.
4. Flip the square over to the opposite side.
5. Fold each of the corners in to the centre to create another smaller square.
6. Flip the square over to create your game.
7. Underneath each flap you can write a message of support for classmates. Write one per triangle (eight in total).
8. Now the folds have been made, hold the rectangle with your left hand and slide your thumb and pointer finger up and underneath the two flaps on the right side. Wiggle your fingers and the paper should bend inwards.
9. Do the same thing with your left hand on the left hand side of the rectangle.

Your chatterbox is now ready to use. Pick a number to determine how many times to flex the chatterbox. Pick a colour. Read aloud the affirmation within!
